

Creative Problem Solving Workshop

In the past few decades, psychologists and business people alike have discovered that successful problem solvers tend to use the same type of process to identify and implement the solutions to their problems. This process works for any kind of problem, large or small.

The Creative Problem Solving workshop will give participants an overview of the entire creative problem solving process, as well as key problem solving tools that they can use every day. Skills such as brainstorming, information gathering, analyzing data, and identifying resources will be covered throughout the workshop.

Workshop Objectives:

- Understand problems and the creative problem solving process
- Identify types of information to gather and key questions to ask in problem solving
- Identify the importance of defining a problem correctly
- Identify and use four different problem definition tools
- Write concrete problem statements
- Use basic brainstorming tools to generate ideas for solutions
- Evaluate potential solutions against criteria, including cost/benefit analysis and group voting
- Perform a final analysis to select a solution
- Understand the roles that fact and intuition play in selecting a solution
- Understand the need to refine the shortlist and redefine it
- Understand how to identify the tasks and resources necessary to implement solutions
- Evaluate and adapt solutions to reality

CLASS CONTENT

Session One: Getting Started

Housekeeping Items
Workshop Objectives
Action Plans and Evaluations

Session Two: The Problem Solving Method

What is a Problem?
What is Creative Problem Solving?
What are the Steps in the Creative Solving Process?

Session Three: Information Gathering

Understanding Types of Information
Identifying Key Questions
Methods of Gathering Information

Session Four: Problem Definition

Defining the Problem
Determining Where the Problem Originated
Defining the Present State and the Desired State
Stating and Restating the Problem
Analyzing the Problem
Writing the Problem Statement

Session Five: Preparing for Brainstorming

Identifying Mental Blocks
Removing Mental Blocks
Stimulating Creativity

Session Six: Generating Solutions (I)

Brainstorming Basics
Brain writing and Mind Mapping
Duncker Diagrams

Session Seven: Generating Solutions (II)

The Morphological Matrix
The Six Thinking Hats
The Blink Method

Session Eight: Analyzing Solutions

Developing Criteria
Analyzing Wants and Needs
Using Cost/Benefit Analysis

Session Nine: Selecting a Solution

Doing a Final Analysis
Paired Comparison Analysis
Analyzing Potential Problems

Session Ten: Planning Your Next Steps

Identifying Tasks
Identifying Resources
Implementing, Evaluating, and Adapting

Session Eleven: Recording Lessons Learned

Planning the Follow-Up Meeting
Celebrating Successes
Identifying Improvements

Session Twelve: Wrapping Up

Words from the Wise
Action Plans and Evaluations
